2006 Midwest Regional Turf Field Day  
**July 18, West Lafayette IN**
See the latest in turfgrass research taking place at Purdue including cultivar trials, pest management studies, and turf management studies. Includes morning research tours and an in-depth workshop in the afternoon. Also features a tradeshow, equipment exhibits and demonstrations, and everyone’s favorite lunch.

2006 MRTF Golf Day  
**Oct., West Lafayette IN**
This golf outing is a fun way to get to know others in your industry. The MRTF Golf Day is held at Coyote Crossing with an early morning shotgun start. All proceeds from this outing are donated to the Midwest Regional Turf Foundation to further research and education for the Green Industry.

2006 Turf and Ornamental Seminar  
**Nov. 15-16, West Lafayette IN**
This two-day workshop features down-to-earth information for the beginning professional and more advanced topics for the seasoned professional. Includes turf and ornamental topics with Category 3a and 3b CCH’s, hands-on training, demonstrations on the research plots, and personal attention from all the Purdue turf and ornamental experts.

2007 Basic Turf Workshop  
**January 2007, Various locations across Indiana**
This NEW one day workshop will be set up for beginning turf workers. It will give the basics on plant growth, cultural practices, id and safety. At an affordable price send your whole crew to educate them on the ins and outs of the turf world. With three sessions being held yearly; Northern, Central and Southern Indiana, it makes it hard for you not to attend.

2007 Indiana Green Expo  
**Jan. 10-12, Indianapolis IN**
A brand-new joint conference with the MRTF and the Indiana Nursery and Landscape Association, the Green Industry Expo will be the largest turf and ornamental conference in the state. An outstanding tradeshow with brand new exhibitors and a top-quality, diverse educational program makes this an outstanding and cost-effective event for anyone involved in the green industry.

2007 IN-IL Turfgrass Short Course  
**Feb., Willowbrook IL**
This week-long intensive course is designed for those who are employed or are considering employment in the turf industry. The short course will provide basic information and hands-on instruction on turfgrass management including soils, fertility, calibration, math, establishment, pest management, and much more.
