

Midwest Regional Turf Foundation

Lawn Care Diagnostic Training

W.H. Daniel Turf Center
West Lafayette, IN
July 28, 2011

**Each participant will receive a newly developed 60+ page guide to weed control for turf professionals.
This guide will improve your weed control and save you money.**

Lawn Care Agenda

- 8:00 am Registration
- 8:30 am Weed Control for annual grasses and sedges (PRE and POST)
- 10:45 am Field plot demonstration and research tours of crabgrass plots:
Herbicide plots will demonstrate antagonistic effects of 2,4-D with Acclaim Extra, various preemergence herbicides and their effect on crabgrass, efficacy of post-emergence herbicides including tenacity, sedge control demonstrations, surfactant demonstration, organic herbicide demonstration and more.
- 12:00 pm Lunch provided
- 12:45 pm Weed control for broadleaf weeds (PRE and POST)
- 1:45 pm Hands-on activities (three 45 min. rotating stations):
 1. Broadleaf herbicide demonstrations including how mowing affects weed control, granular options for broadleaf control, spring timing of herbicides, summer annual weed control, residual activity of herbicides, and more
 2. Advanced calibration of ride-on spreaders - tips on making more uniform applications
 3. Advanced calibration of ride-on sprayers - tips on improving accuracy of applications and improving weed control
- 4:00 pm Survey, CCHs and dismiss

(Field demonstrations may vary based on weather conditions prior to and during diagnostic training)
