2015 U.S. Women's Open
Lancaster Country Club
Pennsylvania

2011 Turfgrass Management Internship
The Lancaster Country Club (LCC) is a private golf course boasting 33 holes of rich heritage and continued success. Of the 30-plus holes, the main 18 date back to the early 1900s when they were designed by renowned golf architect William Flynn. A tribute to their designer, the Flynn 18 remain a true gem to the landscape and a membership favorite. In addition to these holes, the course also maintains a unique 9-hole grouping, known as the Highlands, this portion of the course was added in 1994 and mimics the Scottish countryside with tall grasses and rolling hills. Together, the Flynn and the Highlands make up LCC’s daily 27-hole operation. The remaining six holes are known as the Sunset Six. While of lesser popularity amongst Club members, the 1970’s designed Sunset serves as a youth course.

Of course, 33 holes of play are not the only attraction. Those who are selected to intern with LCC will also have the opportunity to train with three turf-educated assistants and a superintendent who is both a 1994 Penn State alum and a well-respected member of the turf community. Interns will gain first-hand knowledge of all phases of turf management on a Top 100 Classic Course that is preparing to host the 2015 U.S. Women’s Open!

Lancaster Country Club is seeking to hire two and four-year students who are looking for both an opportunity and challenge. Applicants will be selected through a competitive interview process. While preferred, experience is not required.

Mr. Cale Bigelow  
Assistant Professor of Agronomy  
Lilly Hall of Life Sciences  
Purdue University  
915 W. State Street  
West Lafayette, IN 47907-2054

Dear Mr. Bigelow,

Lancaster Country Club is actively seeking interns who aspire to take their careers to the next level. Our 2015 U.S Women’s Open preparations are currently in the planning phases and will greatly benefit any interested interns.

Lancaster Country Club’s current intern program has been in place for approximately seven years and introduces the interns to new management practices, strategies and techniques. Accompanied with this letter is a pamphlet outlining the objectives and expectations for the interns. Please post this pamphlet where it is accessible to the interested students. We have several positions available, and the hourly pay will range from $9.25- $10/ hour. Interns can expect to work long hours and will be required to work every other weekend.

Lancaster Country Club is committed to continually developing and challenging future turfgrass professionals. We look forward to hearing from all interested students who want to complete their internship at our facility. Please feel free to contact us with any questions and or inquiries. Thank you for your time and consideration.

Sincerely,

Michael Yelenosky  
Assistant Superintendent
