Established: 1925, ‘The Golden Age of Golf’

Architect: Seth Raynor, very highly respected architect of the 1920’s

Membership: Private, 425 members, 12,000 rounds annually

Holes: 18 holes, course yardage is 6,750 and it plays to a par of 70, The Camargo Club is ranked in the Top 100 nationally and internationally.

Maintenance goals: Our goal is to provide the members of Camargo with a golf course that is a pleasure to play. We have very high standards and strive for the daily achievement of them. Our greens will be firm and quick through hand watering, mowing techniques, rolling and a sound, proactive IPM program.

Job Description: All interns will be taught how to calibrate liquid and granular applications of fertilizer and pesticides. The interns will also learn how to manage water and its impact upon IPM. In addition they will learn the proper techniques for: mowing, fertilizer and pesticide applications, as well as proper record keeping.

Compensation: $8.50 to $9.00/hour plus overtime, golf on Mondays and uniforms
We have on-site housing for one to two interns

Comments: We have recently completed construction of a new maintenance facility and will be turning our attention heavily to the course to push it to new heights of excellence.

Respond to: Superintendent
